ABBYY®

PDF Transformer™ 3.0
Click. Convert. Create.™

Enhance Productivity with Greater PDF Versatility

ABBYY PDF Transformer™ 3.0 is an easy-to-use PDF solution for quickly converting, creating, editing and saving any type of PDF document. Based on award-winning ABBYY OCR technology, this sophisticated PDF conversion solution can easily convert PDFs to Microsoft® Office formats or create PDFs from within Office applications – with one click! With accurate conversion that retains document layout and structure, PDF Transformer 3.0 virtually eliminates the need for reformatting and retyping.

Compatible with the latest operating systems, PDF Transformer 3.0 is loaded with powerful new features that improve editing, archiving, security, compression and conversion-modification functionalities. This versatile and easy-to-use solution quickly and cost-effectively boosts office productivity. Click. Convert. Create. This is information transformation at its best.
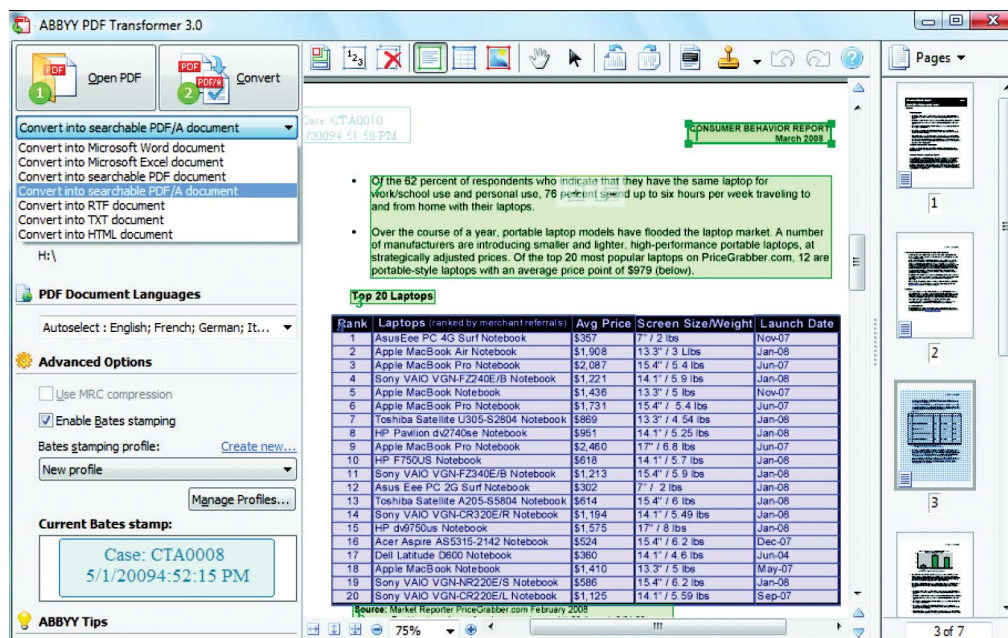

PDF Conversion

Process Any PDF File

PDF Transformer 3.0 processes any type of PDF file including scanned (image-only) PDFs, searchable PDFs, PDFs produced from applications, password protected PDF (PDF password required), PDFs with text in non-standard encoding, tagged PDF and PDF/A.

Full Layout Retention

When converting PDF files to Microsoft Office formats, PDF Transformer 3.0 not only captures text (horizontal and vertical) but also retains all native formatting elements. Retain true text flow, columns, pictures, charts, headers, footers, page numbering, footnotes, fonts, font styles, tables and captions across all pages of a document, virtually eliminating the need to retype or reformat documents.

Product Benefits

Versatility
Use a single product for converting creating, editing and saving PDF files.

Productivity
Instantly convert PDFs to an editable and searchable format without retyping or reformatting. Create PDFs directly from Windows applications without having to launch the program.

Compatibility
Supports the latest Microsoft Office applications and ISO-standard PDF/A.

Security
Easily save important PDFs with password protection; remove sensitive information on documents with redaction capability.

Easy-to-Use
Enhance productivity instantly with an intuitive interface and simple one-click PDF conversion/creation/merge capabilities.

Extra Value
Receive bonus screen-capture software upon registration: ABBYY Screenshot Reader™

ABBYY® PDF Transformer® 3.0
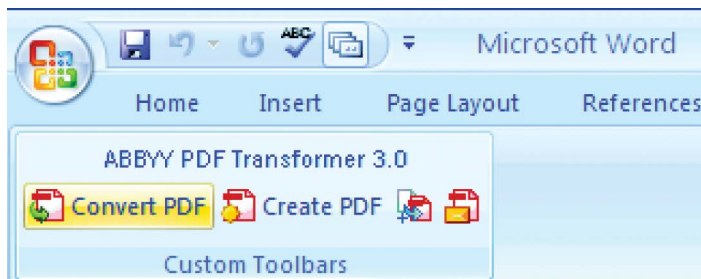

Features and Functionality

PDF Conversion (continued)

Multiple Language Support
PDF Transformer 3.0 automatically detects document languages and accurately converts multi-lingual documents in 184 languages – in any combination.
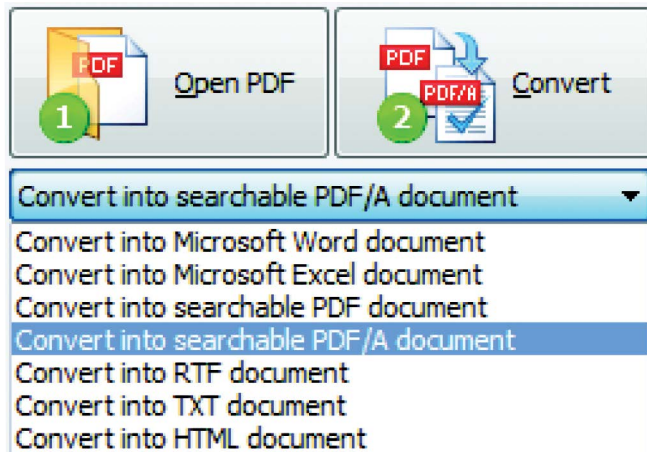

One-Click Conversion from Microsoft Office Applications
PDF Transformer 3.0 allows the quick conversion of PDF files to Microsoft Office documents within these applications. Even converting multiple PDF files to Microsoft Word, Excel® or searchable PDFs is a simple one-click process.

Convert Scanned PDFs to Searchable PDF files
PDF Transformer 3.0 converts image-only PDFs to searchable PDF or PDF/A files in one step. By adding the text layer to image-only PDF files, these files can now be keyword searched for efficient electronic storage and retrieval of scanned information like magazine articles, contracts, books, etc.

PDF Creation

Integrated with Microsoft Office Applications
Easily create PDF files directly from Microsoft Word, Excel, PowerPoint® or Visio® using the embedded toolbar. Simply save the file, directly email the PDF or append the active document to an existing PDF.

MRC Compression
Ideal for document sharing, archiving or easily emailing PDF documents – compress PDF files up to 10 times their original size with ABBYY's powerful new MRC (Mixed Ratio Content) compression technology.

Combine Multiple Files into One PDF
Automatically combine several files of different formats (Word documents, Excel spreadsheets, PDF files and more) into one PDF document. Each file's content will begin with a new page in the resulting PDF. Appending a document to any existing PDF is as easy as one mouse click.

Retain Links, Hyperlinks and Metadata
When creating a PDF file from a Microsoft Office document, accurately retain hyperlinks, internal links and document metadata, such as author, title, subject, keywords, etc.
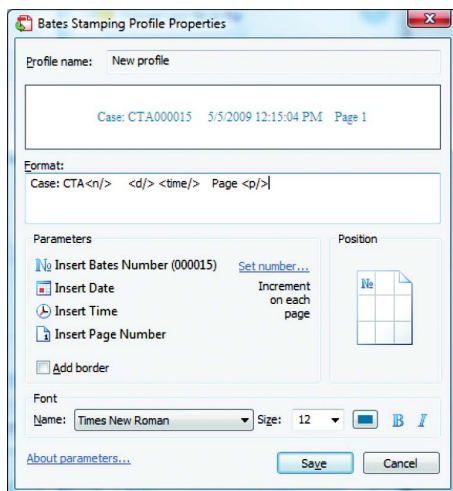

Print-to-PDF from Any Windows Application
Create a PDF file from any Windows application that supports the "Print" function by simply printing a document choosing "PDF-XChange for ABBYY" in the Printer Name dialog box.

PDF Editing

Bates Numbering

A flexible bates numbering tool can add any combination of date/time, static text and/or bates numbering to incoming documents. It's an ideal tool for companies to easily add unique identification and/or bates stamping on documents during the e-discovery and litigation preparation processes.

Customized Stamping

Easily mark and identify documents with copyrights or status by applying customized stamps with any text, position or color.
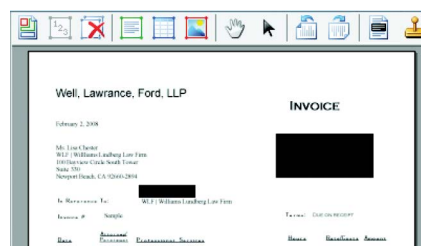

PDF Security

Create Secured PDF Files

Create secured PDF files by setting a password for opening the file or creating permissions passwords to restrict certain operations, such as printing, content extraction, editing and adding/removing pages.

## Redaction of Sensitive Information

Block any sensitive information from being viewed or searched with an easy-to-use redaction feature. Simply click on the Redaction icon from the toolbar and use the mouse to draw around the area of sensitive information (both text and image) to be blocked from view or search.

Encryption and Digital Signature

Output PDF documents with additional security settings with PDF Transformer 3.0's print-to-PDF function. Print documents from any Windows application by selecting "PDF-XChange for ABBYY" printer, and simply apply encryption (40-bit, 128-bit or 128-bit AES) to protect important documents or add a digital signature for authentication.

ABBYY® PDF Transformer® 3.0

Specifications

System Requirements

- PC with Intel® Core™2/Pentium®/Celeron®/Xeon™, AMD K6/Turion™/Athlon™/Duron™/Sempron™ or compatible processor 1GHz or higher
- Operating System: Microsoft® Windows® 8, Windows 7, Windows Vista®, Windows Server® 2003 and 2008, and Windows XP to work with localized interfaces, corresponding language support is required
- Memory: 512 MB RAM
- Hard disk space: 500 MB for typical program installation and 512 MB for program operation
- Video card and monitor (min. resolution 1024 x 768 pixels)
- Keyboard, mouse or other pointing device
- The Microsoft Office applications must be installed to work with Microsoft Word, Excel, PowerPoint and Visio files.

Windows 8
Compatible

New and Enhanced Features Provide Greater Functionality

With its core technology enhancements, PDF Transformer 3.0 offers even greater conversion quality and accuracy than before. Its PDF protection and identification capabilities and powerful PDF compression technology allow users to easily prepare documents for archiving and sharing, enabling greater overall productivity.

- PDF identification with bates numbering and customized stamping, perfect for streamlining e-discovery compliance and enabling more efficient litigation preparation
- Re-create document formatting across multiple pages with ABBYY's innovative Adaptive Document Recognition Technology® (ADRT), which accurately reproduces formatting elements (headers, footers, page numbering, footnotes, fonts, font styles and captions, etc.) with their native attributes
- Easy-to-use redaction, blocks any sensitive information, including metadata, from being viewed or searched
- 184 conversion languages with automatic language detection, including Latin and Cyrillic alphabets, as well as Greek, Armenian, Hebrew, Chinese, Japanese and Thai
- Powerful MRC compression technology saves PDF files up to 10 times smaller than the original size
- Easy archiving with ISO-standard PDF/A format
- Combine multiple files in multiple formats into one PDF
- Convert multiple PDFs with one click into one Word, Excel or searchable PDF document
- Append new files to existing PDF regardless of the format – Microsoft Word, Excel, Visio, PowerPoint
- Improved table reconstruction, including multi-page tables and tables with colored areas
- Microsoft Office ready, including Microsoft Word, Excel, Visio, PowerPoint and Outlook
- Support Citrix and Windows Terminal Services
- Enhanced user interface with page thumbnails view and flexible panel placement
